

# Student Steel Bridge Competition

Smarter.  
Stronger.  
Steel.

**ASCE** AMERICAN SOCIETY  
OF CIVIL ENGINEERS

## Speaker Directory List

The following is a list of individuals from the Student Steel Bridge Competition (SSBC) program sponsors who may be interested in speaking to ASCE Student Chapters and/or SSBC teams. These individuals can provide valuable insight into the steel industry and their companies.

You may reach out directly to the points of contact listed below to make your request. Please note that AISC does not coordinate or guarantee invitations. Note that hosting a meeting with a guest lecture may count toward points on the annual report for your ASCE Student Chapter.

*Note: The information provided here is for the sole use of SSBC teams and their faculty advisors for the purpose of scheduling guest lectures. It is not to be distributed publicly or used for any other purpose.*

---

### American Institute of Steel Construction

Topic: Sustainability in Steel (We'll cover the production of sustainable domestic steel and what makes it a top choice for structural material. We'll also discuss how design decisions can help reduce environmental impact and introduce tools you can use in your design.)

Brian Raff, Vice President - Sustainability & Government Relations
